RIVIERA MAYA

January 31-February 6, 2009

\$1,399.00 pp based on double occupancy

Travel with us as we fly to Cancun and enjoy a scenic drive south to breathtaking Riviera Maya, with its unspoiled beaches, turquoise waters, tropical jungles and Mayan ruins. With its proximity to Cancun, Cozumel and the most popular sites of the Yucatan, it's no wonder that the Riviera Maya continues to be a favorite vacation spot!

Grand Palladium Colonial Resort & Spa is located on a spectacular estate surrounded by lush gardens with tropical vegetation and a private beach front of 800 metres of white fine sand running into the turquoise waters of the Caribbean. The hotel is decorated in Spanish Colonial style and offers its guests the ideal place to spend relaxing holidays in the company of family and/or friends.

One must mention that the construction has respected the flora and fauna of the area, and all the hotel's buildings are completely integrated into the vegetation, thus avoiding indiscriminate tree felling. The hotel has an expert team of biologists who are responsible for maintaining the perfect ecosystem for the well-being of the hundreds of animal and vegetable species, which live in the complex.

Emphasis is on dining, quality food and beverage with show cooking and theme dinners. Imagine seven restaurants, four a la carte with Mexican, Oriental, Mediterranean, plus a steak house and three buffet restaurants with continental, local and Creole cuisine. The Big Blue Palapa fronts the magnificent pool and beach setting and offers evening jazz. Hemmingway's is a non-smoking bar with games while Churchill's is the place for an after dinner liqueur and cigar. The night lights up at Sunset Blvd. Disco in a Hollywood theme with some of your favorite movie stars awaiting.
